

Feed the Cats

Instructions for Preparation: Print out a copy of the first page game board for each child. Print the second page on the reverse of the third page. Cut out the “cat food” along the dotted lines. There should be a lion or a kitty on the back of each “cat food” token.

How to Play: Give each child a game board and a handful of cat food tokens. Play either a high note or a low note on the piano. If the child thinks it’s a high note, he places a kitty token in front of himself. If he was correct, he flips the token over, revealing the food and places the food on his game board next to the kitty. If he’s incorrect, he doesn’t get to feed an animal that round. Child wins by feeding either the lion or the kitty until that animal is “full” i.e. has 3 food tokens.
